The reply filed on 4.26.04 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): in response to the election requirement applicant should set forth the claims which read on the elected specie, (note, not on what "appears" to read on the specie), and applicant should also set forth which of the claims are generic. It is noted that the specification is replete with vague description of the invention e.g. it is noted that every element has a shaped surface, with respect to the claimed inventions the specification does not point out any particular wedge portions, but numerous beveled surfaces. Form the election on 4.26.04 it appears that applicant is stating that there is only one claimed specie, is this correct? See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
